

JEEVANANDAN V

Chennai, Tamil Nadu, India

jeevanandan026@gmail.com | +91 8248511767 | linkedin-jeevanandan-v | Portfolio | github-jeevanandan19

Professional Summary

Computer Science (AI & ML) graduate with hands-on experience in Python, Machine Learning, NLP, LLMs, and software development. Skilled in building AI-powered applications using Scikit-Learn, Flask, RAG, vector embeddings, semantic search, and prompt engineering. Strong analytical and problem-solving abilities with internship experience in data science and full-stack development.

Technical Skills

Programming: Python, Java, SQL

Web & Backend: HTML, CSS, React.js, Node.js, Flask, REST APIs

AI & Machine Learning: Machine Learning, NLP, LLMs, RAG, Prompt Engineering, AI Agents, Random Forest, Decision Trees

Libraries & Tools: Scikit-Learn, Pandas, NumPy, Matplotlib, Git, GitHub, Jupyter Notebook, Google Colab, VS Code

Projects

Machine Learning-Based Smart Livestock Management System

- Developed an AI-powered livestock management platform using Python, Flask, and machine learning.
- Built models for disease prediction, anomaly detection, and livestock analytics using data preprocessing, feature engineering, and model evaluation.
- Implemented recommendation, vaccination alert, breeding analysis, SQLite database, and interactive monitoring dashboard modules.

AI Research Assistant Agent

- Developed an AI agent for research paper analysis, summarization, and question answering using LLMs.
- Implemented RAG pipelines using vector embeddings, semantic search, and prompt engineering for context-aware responses.
- Built a Flask-based document retrieval application and evaluated retrieval and response accuracy for improved reliability.

Intelligent Research Paper Summarizer with Novelty Detection

- Developed an NLP application for automated research paper summarization and novelty detection.
- Implemented semantic similarity, transformer-based techniques, keyword extraction, and document comparison.
- Built an end-to-end web application using Python and Flask for automated research analysis.

Internship Experience

Data Science Intern

May 2025 – Jun 2025

Corizo – Remote

- Completed comprehensive Java Full Stack development training covering frontend and backend technologies.
- Gained hands-on experience in full-stack web application development and database integration.
- Developed web applications integrating database connectivity and RESTful APIs.

Java Full Stack Development Intern

Feb 2026 – Mar 2026

JSpiders – Bengaluru

- Completed comprehensive Java Full Stack development training covering frontend and backend technologies.
- Gained hands-on experience in full-stack web application development and database integration.
- Developed web applications integrating database connectivity and RESTful APIs.

Education

Bachelor of Engineering in Computer Science and Engineering (AI & ML)

2022 – 2026

Paavai Engineering College, Namakkal

CGPA: 8.7/10

Higher Secondary Certificate (HSC)

2022

Government Higher Secondary School, Puliyampatti

Percentage: 79.66%

Secondary School Leaving Certificate (SSLC)

2020

IVL Matric Higher Secondary School, Irumathur

Percentage: 94.6%

Certifications

- Data Science with Python
- Advanced Excel for Data Analytics
- Claude AI
