Professional Summary

Computer Science (AI & ML) graduate with a strong foundation in Python, Machine Learning, NLP, and Software Development. Hands-on experience with Python, SQL, Scikit-Learn, and Flask through academic projects and internships. Quick learner with strong analytical and problem-solving skills, eager to contribute and grow in a dynamic organization.

Technical Skills

- **Programming:** Python, Java, SQL
- **AI & Machine Learning:** Machine Learning, NLP, LLMs, Prompt Engineering, AI Agents, Random Forest, Decision Trees
- **Libraries & Frameworks:** Scikit-Learn, Pandas, NumPy, Flask
- **Tools:** Kiro, Git, GitHub, Jupyter Notebook, Google Colab, VS code

Projects

Machine Learning-Based Smart Livestock Management System

- Developed an AI-powered livestock management platform using Python and Flask.
- Built machine learning models for disease prediction, anomaly detection, and livestock analytics.
- Implemented recommendation, vaccination alert, and breeding analysis modules.
- Integrated SQLite database and interactive dashboards for real-time monitoring.

AI Research Assistant Agent

- Developed an AI agent for research paper analysis, summarization, and question answering.
- Implemented RAG pipelines using LLMs, vector embeddings, and semantic search.
- Applied prompt engineering techniques to improve response quality and contextual understanding.
- Built a Flask-based web application for intelligent document retrieval and analysis.

Intelligent Research Paper Summarizer with Novelty Detection

- Developed an NLP-based application for automated research paper summarization.
- Implemented novelty detection using semantic similarity and transformer-based techniques.
- Performed text preprocessing, keyword extraction, and document comparison.
- Built an end-to-end web application using Python and Flask.

Experience

Data Science Intern

Corizo (Remote)

May 2025 – June 2025

- Analyzed datasets containing 50,000+ records using Python and Pandas.
- Performed data cleaning, preprocessing, and feature engineering for machine learning workflows.
- Developed visualizations and analytical reports using Matplotlib.
- Evaluated model performance and generated insights to support data-driven decision-making.

Placement Coordinator

Paavai Engineering College, Namakkal

September 2023 – May 2026

- Managed and maintained placement records for 1,500+ students.
- Generated eligibility reports and placement analytics for administrative decision-making.
- Performed data validation and reporting using Excel and Google Sheets.
- Coordinated placement drives and streamlined student data management processes.

Education

Bachelor of Engineering in Computer Science and Engineering (AI & ML) Paavai Engineering College, Namakkal CGPA: 8.7/10	2022 – 2026
Higher Secondary Certificate (HSC) Government Higher Secondary School, Puliampatti Percentage: 79.66%	2022
Secondary School Leaving Certificate (SSLC) IVL Matric Higher Secondary School, Irumathur Percentage: 94.6%	2020

Certifications

- Data Science with Python
- Advanced Excel for Data Analytics
